

STONEMAD WORKSHOPS

Stonemad Workshops have been running in Holycross since 2005, teaching stone and wood carving, building in stone, green wood-working, bronze and aluminium casting, creative copper work and willow work. Throughout the summer there are weekend workshops and week-long workshops and during the winter we have evening classes and Wednesday afternoon classes. The classes are relaxed in nature and all participants are encouraged to work at their own pace. No experience is necessary; the workshops are suitable for all ages and abilities. While the workshops are non-residential there is plenty of room for camping, with cooking and shower facilities. Morning coffee and scones, lunch and afternoon tea are provided; all prepared using fresh ingredients from our organic garden and free range hens. All enquiries are welcome; phone Philip or Liz for details.
